I am European trained cook and pastry chef looking for entry level employment in your organization. I have recently returned to the United States from Paris, France where I completed a curriculum and two internships of 500 hours in arts and techniques of classic regional French cuisine and 1280 hours in the arts and techniques of classic French Pastries. As my attached resume shows, I hold a bachelor in nutrition and food management and have approximately eleven months of practical work experience in restaurants and specialty shops. I am looking to grow my experience in the culinary industry and could apply my pastry and cuisine skills in a variety of positions.

I am currently living in Southern Washington and looking for employment and intern. I would very much like the opportunity to interview if you have any open positions. I am willing and able to relocate as necessary. Please see my attached resume, which summarizes my background and experience, and please do not hesitate to contact me if you have any questions.

I look forward to hearing from you,

Sincerely,

Eryn Emken
